What Sets Our Pediatric Surgical Unit Apart

Our 40-bed Pediatric Surgical Unit offers a fast-paced environment where nurses are a critical part of the healing process. Working primarily with general surgeons, pediatric orthopedic surgeons, pediatric plastic surgeons and pediatric neurosurgeons, nurses serve an important role in educating the patient and family regarding post-op care. As the state's only level I pediatric trauma center and referral center for complex care, you will have exposure to high acuity levels within our patient population.

The unit typically admits and discharges approximately 5-10 patients per day. The unit is equipped with an EKG machine, bladder scanner and vein finder equipment to provide quicker access to meet patient needs.

Our Unit's Clinical Nurse Specialist regularly partners with nursing leadership to develop quality improvement and process improvement projects.

Unique Care You Will Provide

- Post-operative surgical care for pediatric general surgery orthopedics, neurosurgery and plastic surgery
- Varied acuity levels which allows for continuous learning and development opportunities

About Oklahoma Children's Hospital OU Health

Oklahoma Children's Hospital OU Health is the state's only comprehensive pediatric hospital. U.S. News & World Report named us one of the Top 50 Children's Hospital for Pediatric Cardiology & Heart Surgery and Pediatric Gastroenterology & GI Surgery. We provide the state's most comprehensive level IV NICU, region's only pediatric heart center, region's only pediatric BMT & CAR-T Therapy program, state's only level IV pediatric epilepsy center and high-risk pregnancy, labor and delivery care in our hospital.
